

CLEAN THE UDGAM WAY

If we do anything, just anything that we did yesterday we are doing it wrong. We strive to change – From classrooms to communities to whole of India with one mission in mind "Our Clean India".

Udgam breathes tomorrow understanding the everyday changing needs of our Clients and engineering the right solution to every living practical problem in cleaning. Adopting most modern evaluating techniques with scientific reports

Udgam stands second to none.

Keep clean – Udgam way.

MECHANISED CLEANING

MANUAL CLEANING

Washroom Hygiene

Waste Management

Stone Restoration & Care

Glass Care

Chemical Selection

AUTOMOTIVE AND VEHICLES

Your vehicle is an investment that should be regularly cleaned-and occasionally detailed.

CONSTRUCTIONS

Construction projects can be dangerous, for the workers and for those working during the construction process. Conducting a safe construction cleanup is important factor for anyone who hopes to avoid injuries and health issues.

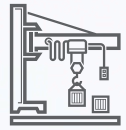

FACILITY MANAGEMENT & CONTRACT CLEANER

We lay latest processes for new BSC's and help in transition from traditional cleaning methods to modern methods for seasoned FM companies.

FOOD PROCESSING

Cleaning assumes key role in obligatory hygiene measures performed in food processing and cannot be substituted by disinfecting alone.

HEAVY ENGINEERING

Aside production targets Health & Safety compliance to keep the factory clean in the top agenda.

HOTELS & RESTAURANTS

One of the key drivers of customer satisfaction in Hotels, restaurants and resorts is level of cleanliness.

HOSPITALS

Traditional cleaning methods are inefficient for decontamination and new approaches are being proposed, including novel disinfectants, automated dispersal systems.

INSTITUTIONS: SCHOOLS & COLLEGES

By providing a clean space for study you take an important step towards creating a positive learning experience.

MALLS & COMPLEXES

Malls & complexes see footfalls day after day and with those footfalls comes the mess, especially in the food court. Tray spills, trash overflow, & floors become hazardous inviting people to slip.

MUNICIPALITIES & ROADS

Image of the city is by the Roads. We address best practices for street sweeping, removal of accumulated sediments, trash and debris to reduce dust clouds and pollutants.

OFFICES

Presenting a clean office environment to impress the clients and enhances the productivity, health, and the work experience of the employees is important. Our advisory services are dependable and professional

OTHER INDUSTRIES

We know the challenges that arise from maintaining equipment and keeping your factory operational.

PHARMA

Cross contamination & adulterations of drug products is not acceptable to any Pharma manufacturer. We improve cleaning processes to ensure compliance to CGMP regulations and FDA expectations.

RESIDENTIAL

Specialized consulting like surface & floor care, polish, marble & granite restoration and deep cleaning.

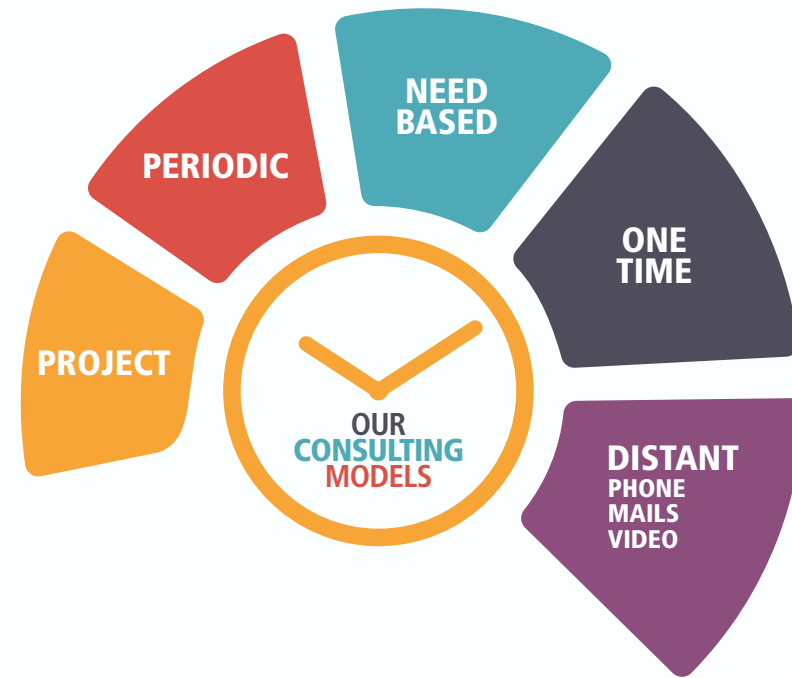

TRANSPORT: SURFACE, AIR & MARINE

Passenger amenities focus on cleaning as the key focus as we drive, fly, sail or park. Our expertise ranges from cleaning of depots, garages, workshops, platforms, hangers, bay areas, runways & docks.

Our Innovative Consulting Technique Focusses on Four Core Areas

○ RESOURCES. ○ PROCESSES. ○ QUALITY. ○ VALUE PROPOSITION

OUR FREQUENCY OF CONSULTING DEPENDS ON YOUR CLEANING NEEDS.

Swachh Bharat

Udgam is deeply involved with Mission Swachh Bharat and offer solutions at different levels to increase the cleaning efficiency. Our Team constantly works in innovating newer ideas and translates the same through education, publicity and consulting. We at USPL have one agenda in mind "Clean India" for all of us to breathe pure and live healthy. Join Hands with Udgam to make India much cleaner and greener for us and our children to live long and healthy.

Knowledge Transfer: We encompass a broad range of activities to support beneficial collaborations through knowledge transfer. Udgam is means of gaining new perspectives on possible directions & approaches for the right cleaning methods through education and training.

Cleaning as a Curriculum and creating Job opportunities: Cleaning is a science and full time engagement as future in India. We explore interest and abilities , strategically plan career goals and create future work success by designing action plans to help achieve the goals

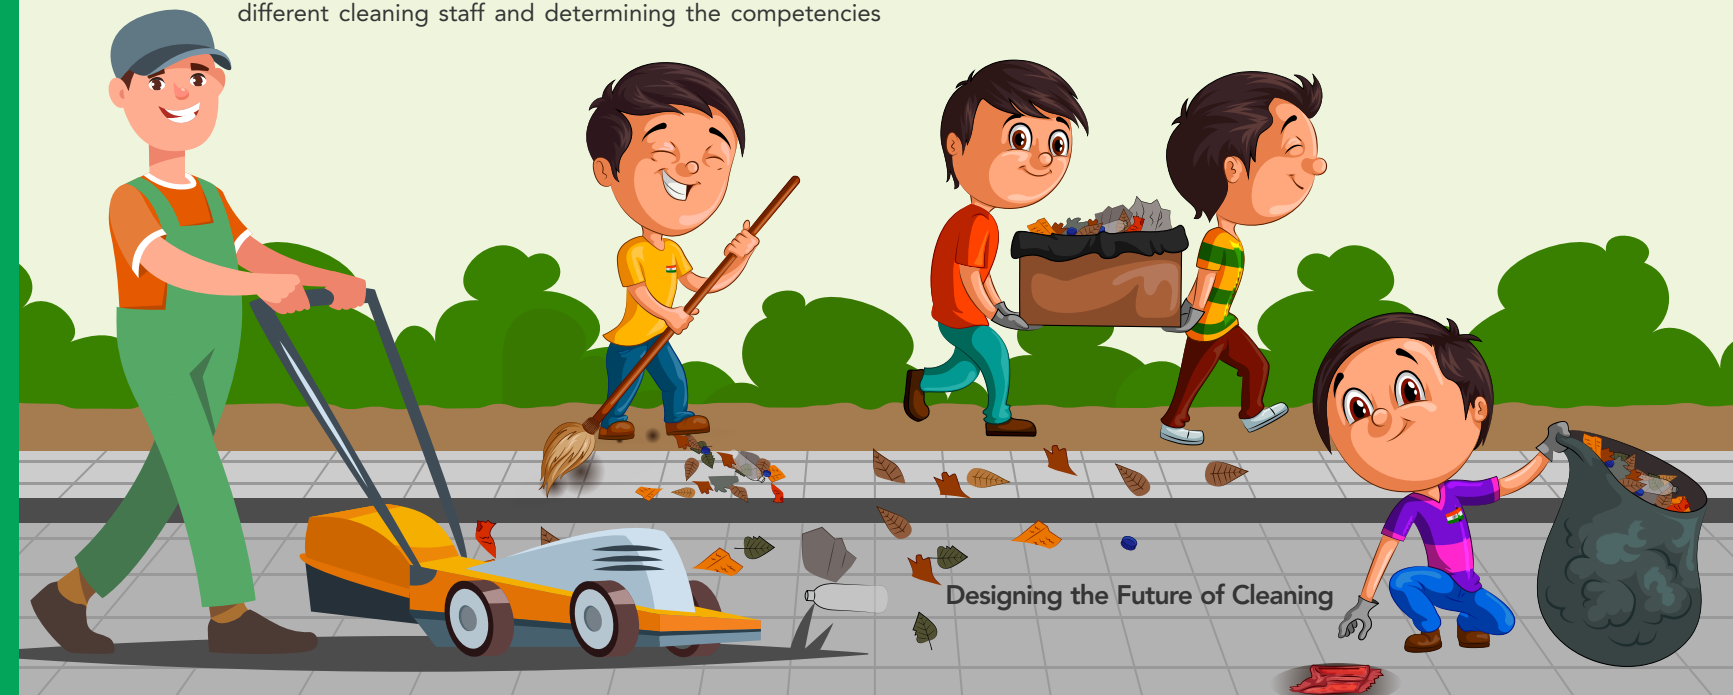

Skill Enhancement: Assessment to measure skill level of different cleaning staff and determining the competencies

required to be addressed. We design the best course of action for skill enhancement and make capable , competent and confident staff.

Laying Cleaning, Standards, Processes & Procedures: Developing instruction pamphlets to softwares we create step-by-step guide for cleaning procedures. Our Team examines the surfaces, dirt levels, soiling and contamination to offer the right process in achieving the goal in minimum time and at optimum cost of cleaning.

Equipment Procurement Guidelines: We at Udgam are well versed in identifying the right equipment for the right application. Drafting essential and desirable criteria with extra factors to enhance operation & suitability both performance - based & output - based.

Awareness & Publicity: Engage Udgam to further publicise Mission Swachh Bharat through Press Release, Seminars, Events & Exhibitions, Social Media, Newsletters, Brochures & Catalogues, Speaking Engagements, Sponsorships and Partnerships.
